

## **TellUs3 Local Authority Report**

# **Tower Hamlets**

Issue date: September 2008

### **Tellus3 Survey**

The TellUs3 survey was a survey of children and young people across England, asking their views about their local area, and including questions covering the five Every Child Matters outcomes. The survey was carried out in Spring 2008. A sample of schools was selected within each local authority, representing the different types of schools in each area. The schools were then provided with guidance detailing how to select pupils to take part in the survey.

The report presents the questions in the same way they were presented to respondents. The questions were developed through cognitive testing with children, to ensure they understood the questions and answered them in a meaningful way. This means that some of the questions, such as self-defining a disability, may not give data consistent with 'standard' definitions.

The responses from the survey were weighted to ensure that the report at local authority and national level is representative of the population of Year 6, 8 and 10 children within that area in terms of the following characteristics: gender, proportion of children eligible for free school meals in the school (as a proxy for deprivation) and type of school. Population data for 2007 from the Pupil Level Annual School Census (PLASC) was used to derive the weights, and the number of children attending Pupil Referral Units is obtained from the 2007 School Level Annual School Census (SLASC).

### **The Local Authority Report**

The local authority report provides data for all the questions asked at both local authority and national level. Where insufficient numbers of pupils or schools took part in a local authority, their results are not presented at local authority level. Where there are insufficient responses in one age group, the local authority report excludes this age group. Data for these local authorities is not weighted and no statistical testing is carried out for comparison against national results. Also, in some cases the response rate is relatively low. Results have been reported for a local authority wherever possible, where there are sufficient responses to provide some useful evidence. This should be taken into account when interpreting the results. All responses are included in the national report.

### Sample characteristics (Section 1: About you)

This section gives details of the demographic characteristics of respondents to the survey (i.e. unweighted sample information). The rest of the survey data has been weighted, to account for any disproportionality between the sample and the population.

### The five Every Child Matters Outcome sections (2: Being healthy, 3: Staying safe, 4: Enjoying and achieving, 5: Making a positive contribution, 6: Achieving economic well-being)

Data at local authority level within these sections of the report has been weighted to take account of differences from our sample population to the local authority population in terms of gender, type of school and free school meals eligibility (as a proxy for deprivation).

Where a difference between the local authority figure and the national figure is statistically significant, the cell is highlighted. This will indicate that the result obtained by this analysis is significantly different to the national average (at the 95% level). Where it is clear that there is a positive or negative outcome of the significant difference between the local authority figure and the national figure, the local authority figure is traffic-lighted either green or red respectively. If there is a difference but does not necessarily have a clear positive or negative outcome then the local authority figure is coloured grey. Local authorities with incomplete data for all year groups have not had significance testing applied. This is due to the unequal basis of comparison between the local authority and national figures.

Questions which were only asked of secondary school children are identified after the question as such (YEAR 8 & 10 ONLY).

Further details of the survey design and methodology can be found in the technical report.

<i>Drugs</i>		
It's good enough	58	67
Need better information and advice	28	25
Don't know	13	7
<i>Sex and relationships</i>		
It's good enough	46	55
Need better information and advice	37	37
Don't know	16	8

Notes: (1) Figures with a traffic-lighted background indicate that the local authority figure is significantly different from the national average, at the 95% confidence level. If the difference indicates a positive outcome for children and young people in the local authority then the local authority's result is traffic-lighted green. If it indicates a negative outcome then it is traffic-lighted red. If there is a difference but does not necessarily have a clear positive or negative outcome then the local authority figure is coloured grey. (2) Unweighted data in the 'About You' section has not had significance testing applied. (3) Where reports only include data for only one or two year groups surveyed, unweighted data is used and significance testing has not been applied as it is less valid to compare the local authority results with the national data. (4) For clarity and formatting purposes a few questions and answer options from the questionnaire are modified or trimmed in this report.

**6: Achieving Economic Well-being****6a: What do you think of your local area as a place to live in? (Tick one option only)**

Very good	27	32
Fairly good	41	43
Neither good nor poor	18	16
Fairly poor	6	5
Very poor	6	4
Don't know	2	1

**6b: What do you hope to do when you leave school? (Tick one option only) (YEAR 8 & 10 ONLY)**

Get a job at 16	11	13
Study then get a job at 18	19	19
Study to go to university	60	54
Something else	5	6
Don't know yet	5	9

**6c: What do you think of the information and help you get to plan your future? For example help from a teacher or careers adviser to choose subject options and think about jobs and careers. (Tick one option only) (YEAR 8 & 10 ONLY)**

It's good enough	32	28
Need a little more	37	42
Need a lot more	21	20
Don't know what there is	10	10

**6: Achieving Economic Well-being (continued)**

Category	LA	NAT
	All (%)	All (%)

**6d: Which of these things would do the most to make your area a better place for you to live? (Tick all options that apply)**

Better shops	48	45
Cleaner and less litter	58	48
Better sports clubs or centres	50	44
Better public transport (such as buses, trains, underground)	32	25
Safer roads	46	37
Better activities for children and young people	51	46
Safer area or less crime	56	39
Better parks and play areas	53	47
Fewer young people hanging around	30	27
Something else	8	10
Don't know	2	3
None (the area is fine as it is)	3	4

**6e: What do you think of the parks and play areas in your area? (Tick one option only)**

Very good	16	10
Fairly good	33	34
Neither good nor poor	21	23
Fairly poor	12	15
Very poor	13	15
Don't know	4	3

**6f: Thinking about all of the things that have been covered in the survey, what if anything, would do most to make your life better? (Tick one option only)**

More help to do better at school	18	11
Better school lessons	6	11
Less bullying	10	9
More organised activities and things to do	9	8
More places where I can go to spend time with my friends	16	22
More say in how things are run at school or in the local area	3	3
More ways I can volunteer or help people	1	2
More advice about being healthy	3	2
More help to plan for my future	13	15
More help to feel safer at school and in the local area	5	4
Something else	2	4
Don't know	8	5
None of these	5	4
